Virulent Newcastle Disease in Chickens, Downtown Los Angeles, Los Angeles County

On 05/18/18 at 1105 hours, the California State Warning Center (CSWC) received report from the California Department of Food and Agriculture (CDFA) that CDFA detected virulent Newcastle disease in 10 chickens in Downtown Los Angeles, Los Angeles County.

- The detection has been confirmed by the United States Department of Agriculture's (USDA) Animal and Plant Health Inspection Service (APHIS).
- This is the first case of virulent Newcastle disease, previously referred to as exotic Newcastle disease, in the U.S. since 2003.
- There is no commercial poultry production and no farms in the immediate vicinity.
- · Virulent Newcastle disease is not a food safety concern.
- No human cases of Newcastle disease have ever occurred from eating poultry products.
- · Infection is easily prevented by using standard personal protective equipment.
- · CDFA is working with federal and local partners as well as poultry owners to respond to the finding.
- State officials have quarantined potentially exposed birds and are testing for the disease.
- · Cal OES is monitoring and remains on standby to assist as warranted.

WEATHER OF CONCERN

Weather of Concern

• The threat of isolated afternoon and early evening thunderstorms will continue each day through Thursday over the higher elevations of the Sierra Nevada. In addition to cloud to ground lightning, thunderstorms can bring strong, gusty winds and locally heavy downpours. Hikers and campers should keep a watchful eye on the sky the next several afternoons and be prepared to move to a place of safety when you hear thunder.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

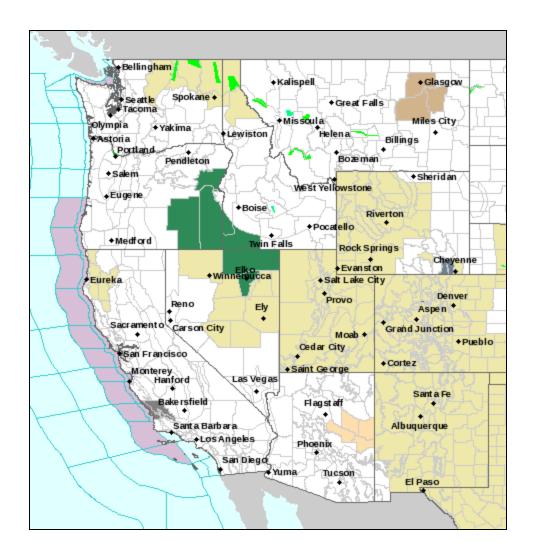

Afternoon and evening thunderstorms possible over higher terrain much of this week. Seasonal temperatures continue across the region. A shortwave trough passed through northern California yesterday evening and this morning. After daily-driven convective activity had tapered off, isolated thunderstorms developed late yesterday evening in the vicinity of Redding / Shasta Lake. This nocturnal activity has since pushed northeastward. Elsewhere, a moderate to strong onshore gradient along with elevated marine layer has resulted in a healthy stratus push inland. Expect a bit of stratus to push into the southern Sacramento and northern San Joaquin Valley toward sunrise.

SOUTHERN CALIFORNIA

A trough of low pressure is expected to push into the region by early next week before shifting eastward. This will support cooler conditions early next week with drizzle possible across coasts and valleys south of Point Conception. There is also a slight chance of showers or thunderstorms for adjacent interior areas. Temperatures will likely rebound later in the week.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- 2018-LAW-46824, 05/19/18, 2218 hours: Kings County Sheriff's Office (KCSO) requested SAR aviation asset to assist with search for missing/downed glider which did not return to Avenal Airport. The pilot of the tow aircraft located possible wreckage of the missing glider at coordinates 35 degrees, 56' 12" N 120 degrees, 13' 00" W. CHP Air Ops unable to support. AFRCC contacted by LDO and coordinating air asset mission support. At 2237 hours, KCSO advised their ground units had arrived at crash location, determined pilot was deceased and cancelled request for air asset assistance. KCSO will notify FAA. AFRCC cancelled air asset mobilization. Mission cancelled.
- 2018-LAW-46811, 05/19/18, 1217 hours: Mendocino County Sheriff's Office advised that on Friday, May 18th at 1300 hours, a 76 year old female at risk with early stage Alzheimer's walked away from her residence in the town of Piercy. Mendocino Sheriff requested twenty (20) Type I and Type II searchers, two (2) trailing K-9's and two (2) area K-9's for 0900 hours start time on Sunday, 05/20/18, at the Piercy Community Center off of Hwy. 271 in Piercy. Cal OES LEB is coordinating the request. Mission ongoing.

Emergency Management Assistance Compact

• 2018-Cal OES-46751: The State of Hawaii requested one (1) Geothermal Subject Matter Expert (SME) from the California Department of Conservation, Division of Oil Gas & Geothermal Resources, to provide support to the volcanic activity occurring in Hawaii. The SME has industry and regulatory experience, as well as knowledge of geothermal wellhead construction, operations, processes, risk management, and mitigation. The SME arrived safely in Hawaii on 05/13/18, and was anticipated to return to California on 05/19/18.

Cal OES MISSION TASKING

Cal OES Missions

- 2018-IREOC-45244: Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene Long-term assignment)
- 2017-SOC-44098: CalRecycle Debris Management Team in Ventura County (Coordinating)
- 2017-SOC-43821: DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- 2017-Inland-42559: Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
